Welcome to Our Company

Welcome to the amazing world of Art & Innovation of **ACME LEATHER LLP** where the ideas get to nurture and get through the process with new concepts with an artistic approach and finally ends with the innovation in quality products. We are manufacturer of fine quality the products. Artificial Leather & Vinyl products at Morbi, INDIA. As the name ACME LEATHER itself suggests "the best among the others",

we are here to make the products that make difference and add beauty to the ultimate product and can feel close to nature as well.

We see... we observe... we inspire... and we transform into the products with the most beautiful texture, colors, and most ultramodern way into the products. This helps us to give the product with innovation and close to nature and real feel.

Mission

To improve our client's equipment reliability by offering best of brand products as well as maintenance solutions to maintain an acceptable.

Vision

The vision of Acme Leather LLP is to continue the heritage of our Company and be a premier Indian manufacturer of top-quality products.

Value

We Take Full Accountability Of Flawless Working Environment And Delivering Results With High Performing Teams Under Inspiration Leadership.

Our Sustainability

Our Company believes that to bring good returns in medium and long term one has to invest in environment friendly technologies. On our manufacturing grounds we have planted alot of trees and grass,to keep our print at a minimum.

The company's highest priority is the safety of its employees. It is the key pillar of manufacturing excellence at Rextile. The Company has institutionalised robust systems for proactive identification of hazards, mitigation of safety risks and safety audits. It is thought this awareness and implementation of our initiatives that we have been able to gain zero injury and fatality.

Our Global-Presence

We truly believe that long-term business can only be made with high-quality products, economical prices, quick delivery, and speedy service. Hence, the building of mutual trust and confidence by exporting products with value constantly stays at the top of our company policy. ACME LEATHER LLP exports are expansions across an ever increasing network of more than **10+ countries**. The company's export department have its wings unfolded to almost every country across the global.

Our Quality Assurance

Quality Control Craftsmanship

At our atelier, craftswomen work in groups to construct a bag, because we believe human hands have souls. With an average work experience of over 17 years at our atelier, we have some of the most skilled leather craftspeople in the world. Nothing is too much trouble at our atelier- we still knot every stitch ending by hand, our leather cutters use a fine-pointed knife that takes over two years to master, our brass buckles are individually sand-casted and painstakingly polished by hand. In a world full of synthetic copies, ACME Leather LLP stands out for being a handcrafted luxury.

Innovation & Design

We take pride in being unconventional. Our first few bags were so different from the norm, they were a hit on Castro Street, California then the gay capital of the world. We have always found inspiration in adventure, travel, and culture, rather than following trends. Originality and simplicity are at the core of our design philosophy. We keep the quality standards as per the international standards. Our teams of highly experienced and qualified quality analysts keep a track of quality right from the beginning to the end of the process. With the help of our own testing equipment, at our in house laboratory we deliver flawless and quality products which are checked for quality standards of international repute. Our equipment is checked and tested regularly.

Elegance
never goes out of style.

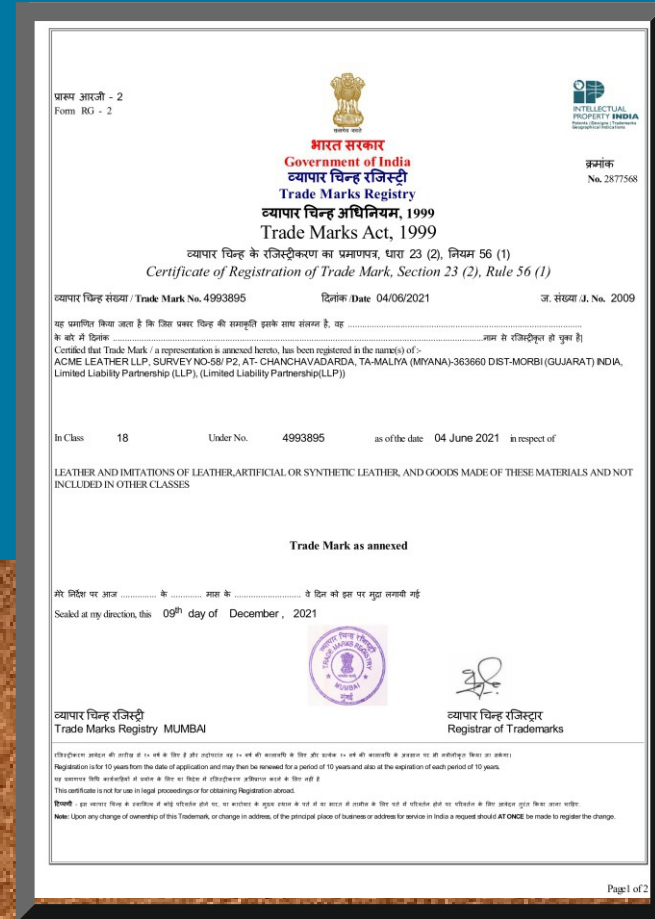

Natural & Ecological

While most tanneries shifted to the faster, cheaper process of chrome tanning, Hidesign revived the slow, labour intensive method of vegetable tanning. Learning from centuries old craft, using natural seeds and barks native to South India, we create fashionable leathers that get better with age.

Our Certificates
